

UTP7201GE-PSE60
60W Gigabit PoE++ Injector

60-watt PoE Capacity | 1000Mbps | 90% Conversion Efficiency | 6KV Protection

1 Easy Cabling for PoE Network

Transfer data and power simultaneously;
Up to 60-watt PoE Capacity;
Plug and Play; No need to change the existing devices;
Up to 90% conversion efficiency; Lower heat radiation;

2 Industrial Chip

Industrial chip features higher operating capacity and stable transmission quality;

3 Operate in Complex Environment

Superior anti-interference ability: 6KV lightning protection & 8KV ESD;
Operating Temperature: -10°C ~ +55°C;
Professional design: no fan, no noise, dustproof ;

-10°C ~ +55°C
6KV lightning protection
8KV ESD

4 Easy & Flexible Installation

Take cables in slot between the splicing units to simplify the cabling;
Multiple installation design fits easily in many locations;
Wide-angle LEDs indicate operating status;

Wall-mounting

Splicing

Wide-angle LED
