

Industrial fast-ring fan-less high power PoE Switch

UTP7308GE-POE

- Full gigabit optical & cooper uplink
- Support level 4 industrial protection
- Single port 60W high-power output
- 6KV lightning protection

Product advantages

Hybrid Ports: RJ45 + SFP

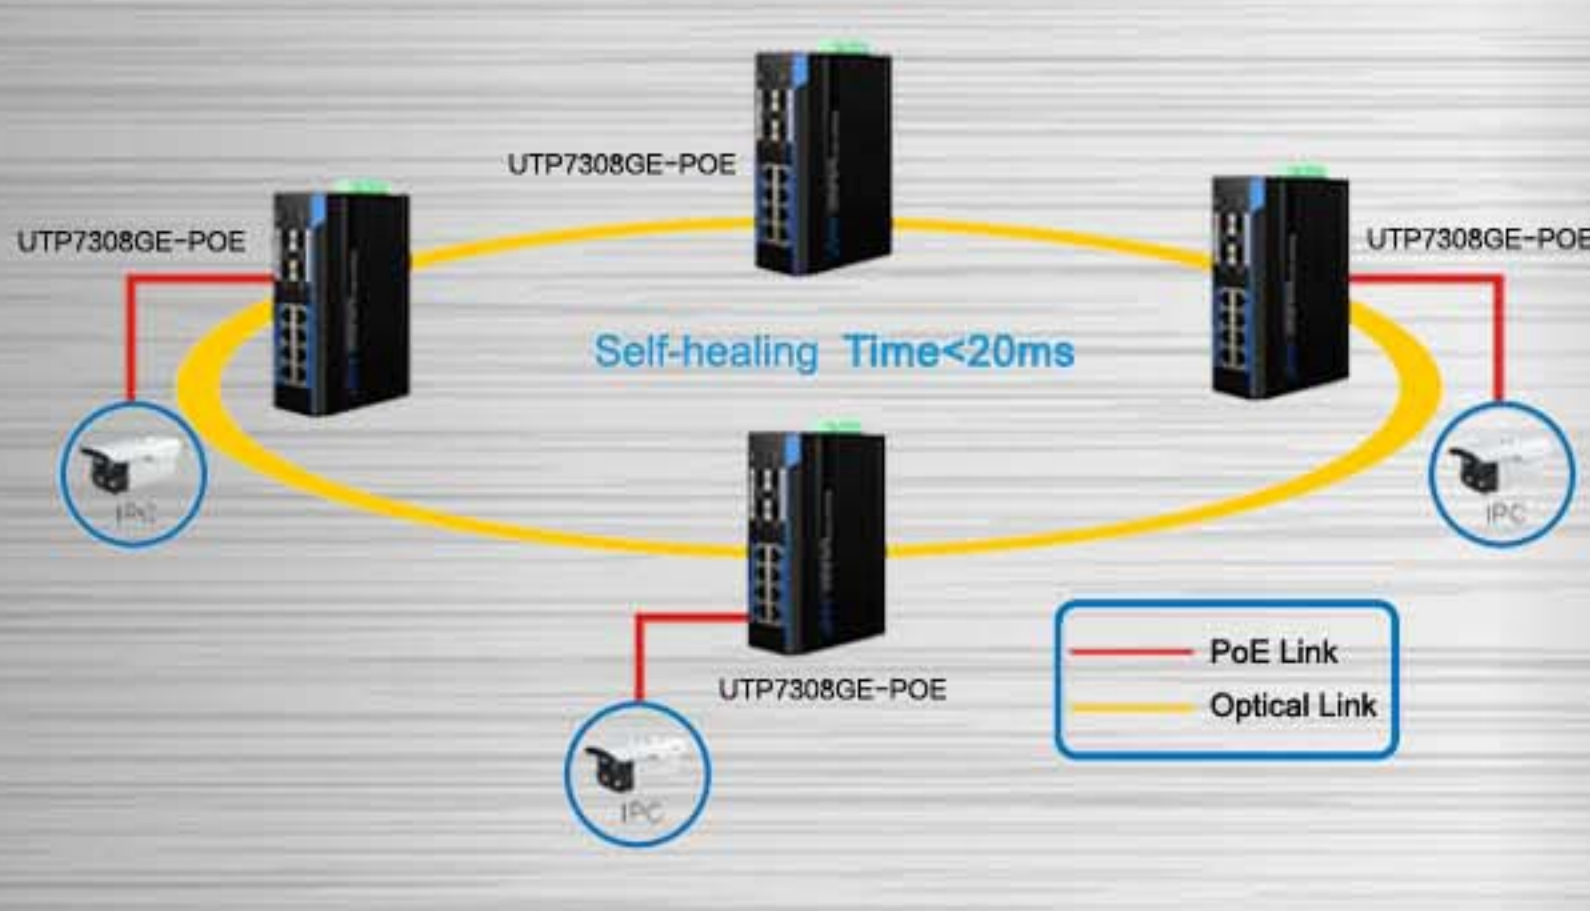

4 x Gigabit SFP Optical slots (long distance transmission)

8 x Gigabit PoE ports (remote router or NVR access)

Support fast-ring

Support fast-ring, self-healing time<20ms, L2 managed features.

60W PoE Power output

Downlink ports can reach up to 60W maximum power output to satisfy the power supply of high speed dome machine, support 802.3af/at standard. (Default PoE of port 1=60W, able to be configured on web-based management page)

Default PoE of port 1=60W; satisfy power supply of dome cameras

Alarm Notification

Warnings of DC power failure, Cable link down & PoE link down.

DC Power Failure Warning

Cable Link Down Warning
PoE Link Down Warning

Adapt to variety of environment

Fan-less wavy metal shell and thermal plastic dissipation design; support level 4 industrial protection (Such as: ESD, RS, CS, EFT etc.), support 6kv lightning protection, adapt to variety of complex environment.

-40°C ~ +75°C
6KV Surge Immunity
Industrial Level 4 Protection

UTEPO About UTEPO

Shenzhen UTEPO Tech Co., Ltd. was founded in 2005, it is a leading global provider of video surveillance and network communications equipment. The company is committed to the development, manufacture and sales of reliable and high-quality data transmission products. The main products include: industrial PoE switches, security special switches, LPWAN technology, industrial IoT transmission management platform and other products and services.

At present, Utepo is in cooperation with the Chinese Academy of Sciences and established the IoT joint communications laboratory, With nearly 100 patents, software, copyright and other intellectual property rights. At the same time, it is also a national high-tech enterprises, "compliance with the contract re-credit" enterprise in Guangdong Province, Shenzhen double soft certification enterprises, China's well-known brands, Shenzhen well-known brands, safe city recommended brand.

SICUR LATINOAMÉRICA 2017

DATE: OCTOBER 23 TO 25, 2017

ADDRESS: Espacio Riesco, SANTIAGO, CHILE

BOOTH NO.: #451-ES
