- **Energy Monitoring** – Analyze a device's real-time and historical power consumption.

- **Away Mode** – Turns your devices on and off at different times to give the appearance that someone is home.

- **Amazon Echo Voice Control** – Amazon Echo (sold separately) lets you control devices connected to the Smart Plugs just using your voice.
Description

Easily turn on/off your appliance form anywhere in the world by a free App. You can also set some customized rules to turn it on/off as you scheduled.
Features

Ease of Use

· **Anytime, Anywhere -** The Smart Plugs make it easy to manage your household electronic devices anywhere in the world with a tap of your smartphone.

· **Schedule and Timer -** Deter bad guys by setting your lights to turn on and off on a schedule so it seems like you're home when you are actually away. And the count down timer gives you a peace of mind, which automatically switches off the running household appliances as your settings.

Compatibility

· **Compatible with Amazon Echo -** You can pair the Smart Plugs with Amazon Echo for voice control.

· **Compatible with Android, iOS -** The free Kasa app lets you run them from any Android (4.1 and higher) or iOS (iOS 8 and higher) smartphone.

Energy Conservation

· **Real-time or historical -** You can efficiently conserve energy and save money while using the Smart Plugs to control your space heaters and fans. The Smart Plug tracks your device's power consumption in real-time, and has weekly and monthly summaries.
